

American Psychological Foundation

Contributors, 2008

The American Psychological Foundation's (APF's) competitive grant and scholarship program supports the development of psychological talent and mobilizes psychology's resources toward those problems that need to be addressed yet would otherwise go unfunded. Giving to APF supports students and psychologists whose research, projects, and intervention programs help individuals and communities worldwide, making a difference every day.

APF would like to thank the following donors who contributed to the Foundation in 2008:
