- 34 not sure I see personal need for this
- 35 sounds like a good idea

- 37 Have not received information
- 38 none
- 39 haven't received any information yet
- 40 none yet
- 41 none
- 42 Its an interesting idea that could be helpful to members. I think that along with the names of the people who are available to consult, some information about them would be helpful. Using the listserve for general consultation should also be promoted. Also, rather than having just three names perhaps there could be a central coordinator who could survey a broad list of people who are available for consultaition.
- 43 have not heard about it
- 44 It is a good plan, hope it can help colleagues
- 45 I am not familiar with this. Through what venue should I have heard of it (is it the informal "mentor" program mentioned on the listserv? If so it should be more clearly formalized- I saw a few members mobilize around a specific members request.
- 46 Not interested in it at this time.
- 47 i have not had time to really think about this but it seems like a good idea
