

The leaders of the [Careers Interest Group from the University-Based Child and Family Policy Consortium](#) (CFPC) and the American Psychological Association's (APA) Division 37 (the Society for Child and Family Policy and Practice) are pleased to announce that the two groups will be collaborating together in the upcoming academic year.

The purpose of this collaboration is to enhance networking, increase mentorship opportunities, and share resources between the members of Division 37 and the Careers Interest Group.

Specifically, the Careers Interest Group would like to offer Division 37 members access to:

- Presentations by guest speakers during Careers Interest Group monthly calls (the third Monday of every month)
- Networking at national conferences
- Opportunities to apply for internships with the Career Interest Group

(E-mail announcements with more information about these events will be sent to you via this list-serve.)

Please note: This collaboration pertains specifically to the Careers Interest Group within the CFPC, not the CFPC at large. Typically, the CFPC membership is on an institutional basis. However, for the purposes of this collaboration, members of Division 37 who are not affiliated with one of CFPC's institutional members are still invited to join our monthly calls, attend networking events, and apply for our internships. Because the CFPC is not seeking membership fees from Division 37 members, Division 37 members will not technically be considered "members" of the CFPC.

If you have any questions, please feel free to email the Careers Interest Group leaders below. We look forward to meeting and collaborating this year!

Sincerely,

Stephanie M. Curenton, Ph.D.
