NEW LIST: WOMEN-SPSMM

In September 2006, a group of about twenty women who are members of Division 51 began a discussion list. "The purpose of this list is to dialogue with each other on an informal basis about our mutual professional interests (women exploring men's issues in terms of clinical practice, research, or teaching) and lend support to each other in terms of jobs, research, mentoring, reading, clinical issues, etc." The list may be accessed at women-spsmm@mit.edu
