<i>Principles for Quality Undergraduate Psychology Programs</i> (1994)	http://www.apa.org/governance/CPM/prin4qualityundergrad.pdf	Developed through discussions held at the 1991 National Conference on Enhancing the Quality of Undergraduate Education in Psychology, this APA policy document provides a set of common principles that characterize quality undergraduate programs.	The <i>Principles for Quality Undergraduate Psychology Programs</i> was developed to inform and guide faculty and administrators in their ongoing efforts to promote excellence in undergraduate psychology education.	Undergraduate faculty and administrators
Report from the APA Working Group on Internationalizing the Curriculum (2004)	www.apa.org/ed/resources.html	In conjunction with the American Council on Education, APA's Education Directorate collaborated with other disciplinary associations to promote the internationalization of teaching and learning at U.S. colleges and universities.	This interdisciplinary project resulted in a report outlining a series of goals for internationalizing the undergraduate psychology curriculum.	Undergraduate psychology programs and departments
<i>Guidelines for the Undergraduate Psychology Major</i> (2007)	www.apa.org/ed/psymajor_guideline.pdf	The <i>Guidelines for the Undergraduate Psychology Major</i> provides support to academic departments by describing a common set of learning goals and outcomes designed to improve the quality of learning and teaching in psychology.	These guidelines outline a set of goals that were divided into two major categories: (a) knowledge, skills, and values consistent with the science and application of psychology and (b) knowledge, skills, and values consistent with liberal arts education that are further developed in psychology.	Psychology faculty, department chairs, administrators, students, parents, and other stakeholders
<i>Teaching, Learning, and Assessing in a Developmentally Coherent Curriculum</i> (2008)	www.apa.org/ed/Teaching-Learning-Assessing-Report.pdf	The Board of Educational Affairs (BEA) Task Force on Strengthening the Teaching and Learning of Undergraduate Psychological Science prepared this report as a resource for departments and programs in psychology.	The task force report examines the development of psychology students from the first course to the bachelor's degree and proposes a set of intermediate outcomes or abilities that these students attain en route.	Undergraduate psychology programs and departments
Psychology Department Program (PDP)	www.apa.org/ed/pcue/psydeptprog.html	Provides access to the APA's many teaching and advising publications and subscriptions to magazines and newsletters for departments.	For an annual fee of \$300, psychology departments can enroll in the Psychology Department Program. Through this program, departments receive several new APA publications, subscriptions, complimentary student affiliate memberships, and other benefits and services of APA.	Undergraduate psychology programs and departments
Online Psychology Laboratory (OPL)	http://opl.apa.org	Becoming an integral part of psychology instruction, OPL is an interactive Web-deliverable site that consists of psychology experiments, demonstrations, a cumulative data archive, and pedagogical materials. These peer-reviewed materials include online and correlational studies, large data sets, and teaching aids.	Faculty and students can use the site to further learning about psychological phenomena and the scientific process, including research methods, practical applications, and ethics.	Students and faculty in high schools, 2- and 4-year colleges

Research Initiatives	A report on the outcomes of the 2008 survey of psychology teachers at community colleges will be available later in 2009.	The Education Directorate worked with its Committee of Psychology Teachers at Community Colleges to develop and launch an on-line questionnaire distributed to nearly 12,000 psychology teachers at community colleges in late 2008. This project was an effort to gather data about the teaching of psychology at community colleges.	This research project also provides an opportunity through which the committee will create an expanded network of psychology faculty.	Administrators and faculty at community colleges
Departmental Consulting Service (DCS)	Departments interested in requesting a consultant can contact David Kreiner, Assistant Director for Department Consulting Services, at kreiner@ucmo.edu.	The Education Directorate works in collaboration with the Society for the Teaching of Psychology (APA Division 2) to administer the DCS. Developed in response to an increasing need for evaluations, the DCS provides departments of psychology with a list of qualified consultants who will provide feedback that will enable them to improve their programs.	The DCS maintains a database of faculty consultants with expertise in a broad range of areas, including: curriculum; faculty; advising; research facilities; and departmental program evaluation.	All types of institutions serving undergraduate students
National Conference on Undergraduate Education in Psychology (2008)	A Special Issue of the <i>Psychology Teacher Network</i> newsletter features a report on the 2008 National Conference at http://www.apa.org/ed/ .	Conference participants developed a blueprint for the future of undergraduate education in psychology.	This issue of the <i>Psychology Teacher Network</i> includes a draft of the revised <i>Quality Principles for Undergraduate Education in Psychology</i> (Draft, 2008).	Psychology faculty, department chairs, administrators, and other stakeholders
G. Stanley Hall and Harry Kirke Wolfe Lecture Series	http://teachpsych.org/conferences/gsh/gsh.php	The Education Directorate works in collaboration with the Society for the Teaching of Psychology (APA Division 2) to administer the annual lecture series at the APA convention.	Four distinguished psychologists present lectures for teachers of introductory psychology at the annual APA Convention.	Teachers of introductory psychology
Board of Educational Affairs (BEA) Block Grant Awards	http://www.apa.org/ed/pcue/bea_block09.html	BEA block grant awards are available to support conferences for precollege and undergraduate teachers of psychology.	In 2009, BEA awarded \$5,000 to support several conferences to enhance the teaching of psychology.	Teachers of psychology
Grand Challenges of Society	http://www.apa.org/science/GCBooklets.html	The Science Directorate has put together three booklets: <i>Prolonging Vitality, Global Climate Change, and Health Disparities</i> . These booklets were part of a 2008 initiative pursued by APA President Alan E. Kazdin, the goal of which was to identify and offer insights and solutions to a number of the grand challenges facing our society. Each booklet describes how psychological science is already contributing and will continue to play a large role in addressing each of these challenges.	Short, with accessible writing. Can be distributed, free of charge, as pdf documents.	Psychology faculty, department chairs, administrators, students, parents, and other stakeholders.
CARE Videos	http://www.apa.org/science/cr/carevideo.html	This DVD includes three segments and accompanying teacher study guides in CARE's (Committee on Animal Research and Ethics) video series on the contributions of nonhuman animal research in diverse basic and applied areas of behavioral science.	Many people wonder why psychologists often use animals as the subjects of their research. These short segments help to explain why, and feature interviews with prominent scientists.	Psychology faculty, department chairs, administrators, students, parents, and other stakeholders.
Summer Science Fellowships	http://www.apa.org/science/sf.html	The SSF program aims to immerse advanced undergraduate students in the science of psychology by exposing them to the excitement and promise of the best of psychological science. An expenses paid, intensive summer training program, the purpose of SSF is to allow up to 12 talented students to be placed in the psychology laboratories of some of the most outstanding researchers in the Washington, DC area for up to 7 weeks.	Direct participation in research.	Undergraduate students.

Behavior Matters	http://www.decadeofbehavior.org/specialpublications.cfm	A sampling of behavioral research that has led to innovations and improvements in our lives in five content areas- living healthier, living happier, living wisely, living better by design, and living together.	Short, with accessible writing. Can be distributed, free of charge, as pdf documents.	Psychology faculty, department chairs, administrators, students, parents, and other stakeholders.
fMRI Booklets	http://www.apa.org/science/fmriBooklets.html	These booklets highlight some of the most exciting fMRI (functional magnetic resonance imaging) research taking place at the intersection of psychology and physiology in four sections: <i>Improving Lives, Treating Disorders, Addressing Social Problems, and Exploring the Mind.</i>	Short, with accessible writing. Can be distributed, free of charge, as pdf documents. One version is written specifically with students in mind.	Psychology faculty, department chairs, administrators, students, parents, and other stakeholders.
Exploring Behavior Week	http://www.decadeofbehavior.org/ebw/ebw.cfm	<i>Exploring Behavior Week</i> is an outreach program to introduce the excitement and opportunities of behavioral science disciplines to secondary school students.	The program is designed to provide materials to support the outreach efforts of graduate students and faculty who wish to talk about behavioral science with K-12 students.	Students and faculty in high schools, 2- and 4-year colleges
