PsycINFO® LA PSYCHOLOGIE ET LE DROIT

Applications Interdisciplinaires

INTRODUCTION

La base de données bibliographiques PsycINFO, publiée par l'American Psychological Association, contient une mine de renseignements utiles aux chercheurs, au corps professoral, aux étudiants et aux professionnels, et ce, dans une vaste gamme de disciplines. PsycINFO constitue un outil de recherche inestimable en matière de psychologie et en sciences du comportement. Sa pertinence dans d'autres domaines, tels le droit, augmente toutefois continuellement; les professionnels œuvrant dans ce domaine peuvent ainsi se procurer une documentation utile, à jour et pratique. La base de données couvre certains sujets comme le droit civil, le droit criminel, la psychologie judiciaire, la sélection des jurés, les témoignages d'experts, l'application de la loi, le contrôle des armes à feu, la justice des mineurs ainsi que plusieurs autres sujets.
