## Interdisziplinäre Anwendungen

### EINFÜHRUNG

Die von der American Psychological Association herausgegebene bibliographische Datenbank PsycINFO stellt Forschern, Dozenten, Studenten und praktizierenden Juristen ein breites Spektrum von Disziplinen zur Verfügung. PsycINFO ist ein unschätzbare Suchinstrument für Psychologie und Verhaltenswissenschaften. Zunehmend gewinnt sie doch auch für andere Bereiche wie Jura an Bedeutung: Juristen finden dort stichhaltige, aktuelle und praktische Werke. Zu den von der Datenbank abgedeckten Themenbereichen gehören bürgerliches Recht, Strafrecht, forensische Psychologie, Geschworenenauswahl, Sachverständigenaussage, Strafverfolgung, Reglementierung von Waffenbesitz, Jugendstrafvollzug – sowie eine Vielzahl anderer Themen.
