Workers' compensation solutions that fit the specific needs of your clients.

Your clients want choices, flexibility and options. That's why ADP offers two Workers' Compensation solutions: our Pay-by-Pay® Premium Payment Program, a comprehensive service managed by ADP; and our Workers' Compensation Premium Tracker Report, a tool to help small business owners manage their payments themselves.

ADP's Pay-by-Pay® Premium Payment Program for Workers' Compensation

ADP provides a simple, cost-effective and convenient service for your small business clients. With Pay-by-Pay, premiums are calculated and collected as they are earned, based on actual payroll and carrier rates. Payments are automatically collected and forwarded to the insurance carrier on your behalf — assuring accurate, on-time payments.

- **Improves cash flow**
  There are no large premium deposits required.†
- **Increases accuracy**
  Premiums are based on actual payroll and carrier rates.
- **More convenient**
  No more checks to write or premiums to calculate.

The ADP Workers' Compensation Premium Tracker Report

This option puts your clients in control of the process, from premium purchase to management of the workers' compensation process. To help manage the process, ADP provides an excellent tool — our Workers' Compensation Premium Tracker Report. Your clients provide ADP with policy information and ADP calculates your clients' premiums based on exact payroll data. Premium Tracker allows clients to review their workers' compensation premium, employee class codes/rates and excluded wages.

- **Streamlines administration and reporting**
  No need to track down additional information in the event of an audit.
- **Easy access**
  Your clients can access the Premium Tracker Reports online, along with their other payroll reports, each time they process a payroll.
