PsycINFO®

A WORLD-CLASS RESOURCE FOR BEHAVIORAL AND SOCIAL SCIENCE RESEARCH

Centered on psychology and the behavioral and social sciences, the interdisciplinary content in PsycINFO® makes it one of the most highly utilized databases by students, researchers, educators, and practitioners worldwide, and an indispensable tool for the discovery of global scholarly research. With more than 4 million records and upwards of 4,000 expertly-indexed records added each week, this ever-expanding collection of behavioral and social science research, dissertations, and scholarly literature abstracts offers a broad view of the field. With relevance to a host of related disciplines, including neuroscience, business, nursing, law, and education, PsycINFO delivers the peer-reviewed content and abstracts students and researchers need, and does so with remarkable precision and a dedication to scholarly and scientific excellence.

PsycINFO® at a Glance

- Updated weekly
- An essential resource used by thousands of institutions in over 60 countries
- More than 4 million bibliographic records, including over 2 million DOIs to allow for direct linking to full-text articles and literature
- Indexing of more than 2,500 scholarly journals
- More than 90 million cited references
- Earliest records from the 17th and 18th centuries, with extensive coverage from the 1800s to the present
- Searchable Grant/Sponsorship information including individual sponsors, grant numbers, grant recipients, principal investigators, and more
- Links to PubMed identifiers (PMIDs) and MeSH headings included for relevant records
- Abstracts included with all dissertation records since 1995, and nearly all records from 1967 to present

Discover the powerful interdisciplinary advantage of PsycINFO

- **Explore the full breadth of research in the behavioral and social sciences with confidence.** Focused on the interdisciplinary aspects of the worldwide behavioral and social science research and literature, PsycINFO is unmatched as a resource for locating scholarly research findings in psychology and related fields across a host of academic disciplines — from the historical to the cutting edge.
- **Quickly locate trusted peer-reviewed research,** with the help of professional indexing by APA experts
- **Shorten the amount of time spent searching by easily identifying:**
  - Document types, such as journal articles, book chapters, book reviews, and editorials
  - Specific research methodologies, such as clinical case reports, empirical studies and literature reviews
  - Documents that have tests or assessment instruments appended
  - Research from a specific grant or funding source
  - And much more
PsycINFO® Product Details

Current & Comprehensive
PsycINFO remains one of the most current resources available for exploring and locating behavioral and social science research. It includes features such as First Posting for journal records ensuring access to the earliest publication of a journal article. PsycINFO offers a broad view of the behavioral and social sciences, and represents a time-tested core of research literature and findings necessary for any comprehensive psychology collection. Coverage spans from the 17th century to the present, charting the evolution of psychology over time through peer-reviewed journals, books, and dissertations.

High Quality
The content in PsycINFO is selected by APA experts based on quality and relevance to the field. Each bibliographic record is then meticulously created and reviewed by APA's skilled and knowledgeable staff. Additionally, record monitoring continues post-release to ensure the highest level of accuracy for each individual record. Complete database reloads occur regularly, allowing for ever-increasing functionality, the inclusion of new fields, and enhanced indexing features.

Authoritative
APA has been producing authoritative bibliographic records since the end of the 19th century, initially with *Psychological Index* and followed by *Psychological Abstracts* in 1927. PsycINFO was introduced in 1967 and since that time has been governed by policy direction from esteemed scholars and scientists from within APA's membership.

Availability
PsycINFO is currently available on *APA PsycNET®*, and through the following trusted providers:

- EBSCO
- Ovid Technologies
- ProQuest
- ProQuest Dialog
Coverage

Journal Coverage
• Journal records—nearly 80% of the database
• 99% are peer-reviewed journals
• Over 2,500 titles covered, including comprehensive coverage of more than 1,800 journals
• Journals are considered for coverage if archival, scholarly, peer-reviewed, and regularly published
• Includes First Posting journal records for early publication articles

Book Coverage
• Authored and edited books—3% of database
• Chapters from edited books—8% of database
• English-language, published worldwide
• Selected if scholarly, professional, or research-based; all with psychological relevance

Dissertations/Secondary Publications
• Selected from Dissertation Abstracts International (Sections A and B)
• 12% of database
• Abstracts for dissertation records from 1995 forward
• Selected on basis of classification in DAI in sections with psychological relevance.

Global Coverage
• Publications from more than 50 countries
• Journals published in 29 languages
• Non-English titles in Roman alphabets included from 1978 to present

Historic Records
• All records originally published in Psychological Index and Psychological Abstracts are in PsycINFO
• Most APA journals back to first issue of publication
• APA continues to regularly add historical records
