APA Databases

The Psychology Behind it All

Congratulations! You have access to the premier psychology research databases offered on APA PsycNET. To help you use the databases, we provide you with training tools to make sure you're getting the most from your subscription. This kit includes some basic information and links to tutorials, webinars, and other resources to help you find the content you're seeking.

Getting started:

- You will find information about your specific subscriptions at either your [MyAPA](#) account page or, once you have logged onto your [My PsycNET](#) page, under the APA PsycNET Purchases tab.
- Your APA account was established with your APA membership number as your username. When you first access your account from either your MyAPA account page or directly from [APA PsycNET](#), you will be prompted to set up an account. At any time, you can change your username and password by using the "Edit Profile" link in MyAPA or the "Edit" link on the My Profile tab in My PsycNET. If you forget your password, click the [link](#) provided. You will be asked for your email address, username, or member number to have it emailed to you. Your username will be confirmed in the email message you receive after changing the password.

Tutorials and Guides

The APA website provides [tutorials](#) specific both to customizing your APA PsycNET account and to helping you develop successful search strategies. You will also find a variety of guides and search examples in our [Search Help/Training Center](#) that are useful to both novice and expert searchers. The [APA PsycNET help menu](#) covers all features of the platform. Tutorials are also available on [the PsycINFO YouTube channel](#). Please visit us on our [Facebook](#) page or on [Twitter](#).

Webinars

We also offer free webinars to demonstrate APA PsycNET and provide training. PsycINFO Training Specialists will provide the latest information on database content, tell you how to craft effective searches, and explain how to manage search results. Sign up today! To view the schedule and register, click [here](#).

APA Databases

The Psychology Behind it All

PsycINFO[®] is an abstract (not full-text) database that helps you find and link to content in scholarly journals, books and book chapters, book and film reviews, chapters, and dissertations. For the most current information about PsycINFO, including journal coverage, please [visit the PsycINFO home page](#).

PsycARTICLES[®] contains searchable full-text articles from journals published by APA and allied organizations from 1894 to the present. For the most current information, please [visit the PsycARTICLES home page](#).

PsycBOOKS[®] is a full-text database of scholarly titles published by APA Books and others. For the most current information, please [visit the PsycBOOKS home page](#).

PsycEXTRA[®] is a database derived from sources outside of peer-reviewed journals, including publications issued by government agencies, private research institutes, psychology labs, and more. PsycEXTRA contains the full text of 70% of the records as well as abstracts and citations. For the most current information, please [visit the PsycEXTRA home page](#).

PsycCRITIQUES[®] is a database of full-text reviews of current professional books and popular films; it also contains comparative reviews of books. Weekly releases include current year copyright book reviews. For the most current information, please [visit the PsycCRITIQUES home page](#).

PsycTESTS[®] is a research database that provides access to psychological tests, measures, scales, surveys, and other assessments as well as descriptive information about the test and its development and administration. For the most current information, please visit the [PsycTESTS home page](#).

PsycTHERAPY[®] is a database containing more than 300 videos featuring therapy demonstrations showing clinicians working with individuals, couples, and families. For the most current information, please visit the [PsycTHERAPY home page](#).
