Author(s) Agreement Checklist

As senior/sole author, please be sure to use this form as a checklist to ensure proper submission of your manuscript. Failure to do so can result in the return of the paper without review. Please check off the appropriate responses and submit it along with your cover letter.

- I have read the Instructions to Authors contained in the JCCP website ([www.apa.org/pubs/journals/ccp/](http://www.apa.org/pubs/journals/ccp/)).
- I attest that this manuscript is not being considered by another journal nor has it been published elsewhere.
- If this paper describes a study wherein humans participated, I attest that it has undergone IRB evaluation and has received approval at all relevant institutions. I have noted this within the text of this paper.
- I have followed instructions to adequately conceal the identity of all authors to ensure masked review.
- I have included a cover letter that contains the names and contact information of all authors. Inclusion of such information indicates that these individuals have agreed to be an author.
- This manuscript has been prepared consistent with the APA Publication Manual (6th edition).
- This manuscript is not longer than 35 pages inclusive of all materials. If not, I have provided a justification of the need for additional pages. I understand that I cannot exceed 45 pages total.
- I have included a structured abstract consistent with the guidelines included in the "Instructions to Authors."
- In describing the results of any statistical analyses, I have reported effect sizes and related confidence intervals where appropriate and relevant.
- If my paper is being submitted as a Brief Report, Brief Comment, Extended Comment, or Invited Response, I have followed the specific instructions in its preparations. If a Brief Report, I agree that a full report has not/will not be submitted to another journal.
- If this manuscript describes a randomized clinical trial (RCT), I have followed all of the relevant JARS guidelines, including submission of a participant flow diagram.
- If this manuscript describes a meta-analysis of RCTs, I have followed MARS guidelines.
- If this manuscript describes a nonrandomized design, I have followed relevant JARS guidelines.
