PsycINFO® PSICOLOGÍA MILITAR

Aplicaciones interdisciplinarias

INTRODUCCIÓN

La psicología militar fue una de las primeras aplicaciones de la investigación psicológica. PsycINFO ofrece una valiosa fuente de información bibliográfica al respecto. Los investigadores interesados en el estrés del combate, el entrenamiento para la guerra, la opinión pública sobre la guerra, el desarrollo profesional y la toma de decisiones aplicada al ámbito militar, podrán encontrar materiales esenciales de investigación.

Publicada por la Asociación Americana de Psicología, la base de datos bibliográfica PsycINFO es una fuente recurrida de información para psicólogos. Con más de 2 millones de resúmenes de más de 2,000 revistas especializadas provenientes de todo el mundo, PsycINFO ofrece beneficios prácticos para los profesionales de la salud que trabajan en entornos militares, para psicólogos militares o investigadores que quieran especializarse en los problemas de los veteranos.
