

# **2002 - 2003 Faculty Salaries**

**In Graduate Departments of Psychology**

2002-2003 FACULTY SALARIES IN GRADUATE DEPARTMENTS OF PSYCHOLOGY

Marlene Wicherski, Tamara Washington, and Jessica Kohout

March 2003

Research Office  
American Psychological Association  
750 First Street, N.E.  
Washington, DC 20002-4242

## ACKNOWLEDGEMENTS

The annual Survey of Graduate Departments of Psychology is conducted with the active support, counsel and cooperation of the Council of Graduate Departments of Psychology and its Executive Board. This report is prepared by the Research Office, within APA's Central Programs. We gratefully acknowledge the continued support of Dr. Raymond Fowler, Executive Vice-President and Chief Executive Officer of the APA, and Dr. Michael Honaker, Deputy Chief Executive Officer and Chief Operating Officer.

We are also thankful to James Taliaferro for his assistance with the survey mailings, and to Darnell Singleton and William E. Pate II for their contributions to all phases of the project.

Finally, each department chair who participated in this year's survey deserves special acknowledgement. Without their cooperation in completing the questionnaire, this report would not be possible.

## 2002-2003 FACULTY SALARIES IN GRADUATE DEPARTMENTS OF PSYCHOLOGY

### Background

Surveys of faculty salaries in graduate departments of psychology have been conducted since the mid-1960s, first by the Council of Graduate Departments of Psychology (COGDOP), and after 1978 by the American Psychological Association (APA) in conjunction with COGDOP. Subsequent years saw the survey broaden in scope to cover more diverse issues concerning graduate education, and in 1990 it was divided into two separate components, with the initial phase of the survey addressing faculty salaries and the second covering other topics. More recently that second portion was folded in with the ongoing Graduate Study effort. This has been accomplished by modifying the Graduate Study instrument.

### Method

In September 2002, the Survey of Faculty Salaries in Graduate Departments of Psychology was mailed to 634 U.S. and Canadian graduate departments of psychology. Eligible departments were drawn from the current edition of *Graduate Study in Psychology* (APA, 2000) and prior editions, which included many departments not strictly defined as psychology departments (e.g., *Graduate Study in Psychology and Associated Fields*, APA, 1991), and from the membership of the National Council of Schools and Programs of Professional Psychology (NCSPP). The questionnaire requested information on demographics, employment status, rank, years in rank, highest degree and year awarded, and salary for all faculty members. Departments that had not yet returned completed forms were sent a final reminder by electronic mail in late December.

Of the 634 departments and professional schools surveyed, 323 provided at least some usable information, for an overall response rate of 50.9%. Data presented in this report are based on 6,038 faculty who hold doctorates, who are employed full time, and for whom the relevant data were available. Included in this total are 4,425 faculty in 218 U.S. doctoral departments, 1,055 faculty in 87 U.S. master's departments, and 558 faculty in 18 Canadian departments.

Consistent with previous efforts, response rates varied considerably, depending on the geographic location of the institution, the highest degree offered by the department (doctoral or master's), whether the institution is public or private, and the department type. Substantially higher levels of response were obtained in the U.S. for doctoral departments (55.3%) than for master's departments (41.4%). Departments in the U.S. overall were less likely to have completed the survey than Canadian departments (50.5% versus 60.0%). Psychology departments were more likely than other types of academic units (e.g., professional schools or educational psychology departments) to provide data. More information on specific response rates can be found in Appendix Table A.

### Structure of the Report

Results are presented separately for (1) U.S. doctoral departments; (2) U.S. master's departments; and (3) Canadian departments. For U.S. doctoral departments, salaries are broken out along the following dimensions: geographic region, public or private institution status, and type of department (e.g., psychology, professional school of psychology, or human development). Among master's departments, the majority of participants were psychology departments; thus, detailed analyses have been limited to this category. Statistics on Canadian faculty concentrate on doctoral-level departments as there were only two at the master's level supplying data.

Most salaries are reported according to academic rank and years in rank, or by years since earning the doctorate. Additional tables report salaries paid to chairs, other administrative positions, and newly hired faculty, changes averaged over the past three years, and a comparison of salaries paid to men and women of equivalent years in rank. The final table presents average amounts paid to adjunct or other part-time faculty who are compensated on a per-course basis.

### Caveats

Readers of this report should consider possible error introduced by nonresponse. Comparisons of respondents with nonrespondents indicated few marked differences in terms of the geographic distribution for U.S. doctoral departments overall and doctoral psychology departments, in particular. However, the response rate was lower for U.S. master's departments and for departments in Canada. Thus, in reading the results, it is important to consult Appendix A for the appropriate rate of response.

Several tables report percent changes in average salaries over the past two years. These percentages are discussed in both monetary terms (as measured in current dollars) and in real terms (those that have been adjusted for inflation rates reported by the U.S. Bureau of Labor Statistics and the national statistical agency of Canada, Canada Statistics). It is important to note that these percentage changes are based on salary data reported by departments that responded to the survey for the respective years; they are not based on changes in faculty salaries computed on an individual basis. Thus, they are subject to the error that may be introduced by a slightly different set of departments responding to each survey.

Readers should also note that the term "Graduate Departments of Psychology" is meant broadly to encompass departments, schools, interdisciplinary programs, or other academic units listed in recent editions of Graduate Study in Psychology as offering a graduate degree in one or more areas of psychology. Departments may be called any of the following: (a) psychology; (b) educational psychology; (c) counseling psychology; (d) human development; (e) professional school; (f) counseling, guidance and counselor education; (g) school psychology; (h) education; or (I) other, but these department names are not synonymous with program areas. For example, a program in counseling or school psychology may be found in any of several categories. Almost two thirds of the departments award degrees in multiple areas of psychology. The remaining third tend to be departments that are specialized, offering degrees in a few closely related subfields. Thus, "graduate departments of psychology" refers to any academic unit that offers one or more graduate degrees in psychology.

## Notes To Tables

1. Medians, quartiles, means, and standard deviations are reported for the majority of analyses. The median may be the most useful measure of central tendency since it is less influenced by extreme values than the arithmetic mean. In most of the tables, both median and mean salaries are presented; observed differences reflect the skewness in the distributions.
2. No statistics are provided where the N is less than 10 or where the standard deviation is 0. In these instances, only the N is provided.
3. Statistics also were not provided when the number of responding departments was 1 or when the Ns for subgroups based on rank and years in rank were so small that aggregate statistics would not be meaningful.
4. The majority of tables report salaries for faculty in U.S. graduate departments of psychology on a 9-10-month basis. Some departments (e.g., professional schools of psychology and departments of psychology in medical schools), however, typically operate on an 11-12-month academic calendar. In these cases, the 9-10-month salaries can be converted to their 11-12-month equivalents by multiplying by 11/9.
5. Percentage changes in average salaries from 2001-2002 to 2002-2003 are provided in some tables. These percentages are reported both in monetary terms (as measured in current dollars) and real terms (those that have been adjusted for inflation). This adjustment is based on the rates of inflation reported by the U.S. Department of Labor's Bureau of Labor Statistics. These percentage changes are based on salary data reported by departments that responded to the survey for the respective years; they are not based on increases in faculty salaries computed on an individual basis. Thus, they are affected by the error resulting from having a slightly different set of departments responding to each survey.
6. This report uses nine categories for geographic region that correspond to the divisions used by the U.S. Department of Commerce's Bureau of the Census. The states comprising each cluster are listed in Appendix B.

Note. Included in this table are only those faculty who are full time, who hold the doctoral degree, and who are in departments of psychology that award the doctoral degree (e.g., psychology departments, educational psychology departments, and schools of professional psychology). All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10.

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are only those faculty who hold the doctoral degree, and who are in departments of psychology that award the doctoral degree (e.g., psychology departments, educational psychology departments, and professional schools of psychology). All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not provided, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not. For a description of the states included in each region, see Appendix B.

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are only those faculty who hold the doctoral degree, and who are in departments of psychology that award the doctoral degree (e.g., psychology departments, educational psychology departments, and professional schools of psychology). All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not provided, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not. For a description of the states included in each region, see Appendix B.

OTHER DEPARTMENTS (3 department) (Insufficient Ns of faculty)

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are only those faculty who hold the doctoral degree, and who are in departments that award the doctoral degree. "Educational/Counseling/School" includes departments of educational psychology, counseling psychology, school psychology, and similar types of units. All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not provided, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not.

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are only those faculty who hold the doctoral degree, and who are in *psychology* departments that award the doctoral degree; excluded are other types of departments that may be more specialized in nature (e.g., counseling psychology departments, educational psychology departments, and professional schools of psychology). All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not provided, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not. For a description of the states included in each region, see Appendix B.

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are only those faculty who hold the doctoral degree, and who are in *psychology* departments that award the doctoral degree; excluded are other types of departments that may be more specialized in nature (e.g., counseling psychology departments, educational psychology departments, and professional schools of psychology). All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not provided, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not. For a description of the states included in each region, see Appendix B.

Source: 2001-2002 and 2002-2003 Faculty Salary Surveys, APA Research Office and Council of Graduate Departments of Psychology.

Note. All salaries are 9-10-month salaries. Percentage changes in monetary terms are measured in current dollars. Percentage changes in real terms reflect the percentage increase in monetary terms adjusted for the percentage change in the Consumer Price Index reported by the Bureau of Labor Statistics. These percentage changes were 2.6% for the period from September 2000 to September 2001 and 1.5% for the period from September 2001 to September 2002.

<sup>a</sup>There was an insufficient N of faculty for analysis.

OTHER DEPARTMENTS (13 departments) (Insufficient Ns of faculty)

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are faculty who hold the doctoral degree, and who are in departments that award the master's degree. The category "Other" includes departments of educational psychology, counseling psychology, school psychology, and other units that may be more specialized in nature. All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not reported, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not.

Source: 2002-2003 Faculty Salary Survey, APA Research Office and Council of Graduate Departments of Psychology.

Note. Included in this table are only those faculty who hold the doctoral degree, and who are in *psychology* departments that award the master's degree; excluded are other types of departments that may be more specialized in nature (e.g., counseling psychology departments). All salaries are 9-10-month salaries. No statistics are provided where the N of faculty is less than 10. Salary statistics for Lecturers/Instructors are not provided, given that the Ns are insufficient for analysis, but they are included in the figures for "All ranks". Included in the figures for "All years" are faculty whose rank was specified but whose years in rank was not. For a description of the states included in each region, see Appendix B.

Note. The *N*s refer to the number of departments that provided the information. Percentage changes in monetary terms are measured in current dollars. Percentage changes in real terms reflect the increase in monetary terms adjusted for the percentage change in the Consumer Price Index reported by the Bureau of Labor Statistics. For the period of September 2001 to September 2002, the percentage change was 1.5% for the United States.

<sup>a</sup>Reported are 9-10-month salaries.

<sup>b</sup>Reported are 11-12-month salaries in Canadian dollars.

\*There was an insufficient number of respondents for analysis.
