WHAT DO BOARDS & COMMITTEES DO?

- Develop or review policies of APA
- Represent an area of expertise or a specific constituency
- Can review new policy proposed by Council members or create new policy recommendations
- May carry out additional projects relevant to their mission
Psychologists notice a need for practice guidelines to treat a specific group of clients (e.g., Lesbian, Gay, and Bisexual individuals)

Under the guidance of a Committee or Board (Committee on LGBT Concerns), the group develops treatment guidelines

The guidelines are reviewed by other Committees and Boards for feedback

The guidelines go before Council for a vote (approved in 2011)
