

Undergraduate Education

5 top priorities each of 4 sub-groups examining undergraduate education:

- Development of APA SNAP assessment guide
- 2016 Study on Undergraduate Psychology
- Top 20 evidence-based translational principles for undergraduate education
- Optimize APA website to include advising/mentoring
- Develop webinars for undergraduate instruction in psychology
 - Video-recording of good lecturing techniques with embedded evidence-based techniques of instruction

Undergraduate Education

How can psychological science be translated into the optimal, yet efficient way to assess program outcomes at the undergraduate level?
