

Implications for CE

- Outcome/recommendation #1:
Make CE/lifelong learning personally and professionally relevant (e.g., through self-assessment of competencies) to increase engagement
- Outcome/recommendation #2:
To create a culture of learning through a sense of community and connectedness, which may include the use of technology, along the continuum of professional development

Implications for CE

- Brain Trust Activator:

How do we change the culture from ‘continuing education’ to ‘craving education’?
