Wendy Jeremie, MSc, from the Committee for Global Psychology (CGP) visited CABE to discuss a draft rubric developed to help APA Boards, Committees, and other groups assess whether their projects take a global perspective. The rubric was developed in response to the [Resolution on Promoting Global Perspectives in US Psychology](#) adopted by the APA Council of Representatives in February 2026, which commits APA to actively ensuring that a global perspective is implemented in processes and outcomes laterally throughout the Association. Committee members shared feedback on the rubric and how global perspectives are relevant to the work of CABE.

Two prompts may be needed for associate's level and bachelor's level, or CABE may want to select one associate-level winner and one bachelor's level winner.
