

FACT vs. FICTION

About APA Sponsorship

FICTION

Being an approved sponsor means that the programs we offer are APA-approved.

APA sponsors of CE can offer CE, CEUs and CMEs if the content is appropriate.

Partial credit can be awarded on a case-by-case basis.

All instructors must have a doctoral degree to teach APA CE programming.

Instructors are not permitted to claim credit for the programs they teach.

FACT

The CEC does not approve individual continuing education programs; approval occurs at the organizational level.

Sponsors are approved to offer continuing education (CE) to psychologists only.

Sponsors may not award variable credit for partial attendance.

It is not required that instructors be psychologists. However, they must have expertise in the areas they teach.

Instructors may claim credit for programs they teach. However, CESA recommends they check with their state licensing board to verify acceptance.
