

LETTER TO INTERESTED STUDENTS

May 10, 2003

Thank you for your expressed interest in the Psychology Club at Stevenson High School. We are looking forward to an exciting 2002-2003 school year and hope that you will join us. This past year was the pilot year for the Psychology Club. We visited the Sigmund Freud Exhibit at the Field Museum, had discussions about the validity of ESP and Life after Death, analyzed many psychologically based films including a field trip to see *A Beautiful Mind* (a film about paranoid schizophrenia). Next year we hope to incorporate a Psychology Fair into our program in which students will conduct individual research on psychological concepts of their choice. We would also like to plan for more guest speakers about topics ranging from eating disorders to clinical psychological work. In addition, a number of field trips such as a visit to a sleep laboratory will be planned for next year.

Currently, many of our members are upper classman as this is the population that makes up most our Psychology courses at Stevenson. We would also like to encourage underclassman and others not currently enrolled in a Psychology course to participate in the Psychology Club as a way of getting involved and learning more about the fascinating topic of Psychology.

Our meetings will be every other Thursday from 3:45-5:00, with alternative dates for field trips. Members need to be present at all meetings and participate in the Psychology fair in order to be a participant in good standing. Please feel free to contact Ms. Brandt (X1676) or Mr. Bradford (X1258) with any questions.

Have a great summer, we look forward to meeting you next year.

Sincerely,

Laura Brandt
