ESSENTIAL SCIENCE CONVERSATION: STRENGTHENING TEAM SCIENCE IN A CHANGING RESEARCH LANDSCAPE (MARCH 24, 2026)

SESSION DESCRIPTION

As scientific challenges grow more interconnected, interdisciplinary research is rapidly expanding. This growing emphasis on cross-disciplinary research requires scientists to navigate differing methodologies, communication styles, and organizational structures. Join us for a panel discussion with experts from diverse fields to explore how researchers can strengthen team-based work and build productive and resilient scientific teams.

Any opinions, findings, and conclusions or recommendations expressed by the presenters in this webinar do not necessarily reflect the views, policies or positions of the American Psychological Association.
