

*Memorandum of Understanding
between
The American Psychological Association
and
The Swedish Psychological Association
/Sveriges Psykologförbund*

The American Psychological Association (APA) and the Sveriges Psykologförbund (SPF) agree as follows:

Whereas, the Bylaws of APA and the statutes of the SPF share mutual objectives calling for the advancement of the discipline in the public interest; and

Whereas, it is desirable to have integration and exchange between the psychological organizations in the United States and Sweden; and

Whereas, mutual concerns make it likely that occasions for joint consultation and cooperation will present themselves in the years to come; and

Whereas, both organizations wish to anticipate such occasions by establishing a framework, when possible, for their timely discussion;

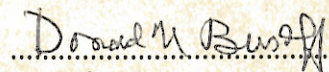

Now therefore, APA and the SPF affirm and reaffirm their working relations in this Memorandum of Understanding.

Furthermore, pursuant to this Memorandum of Understanding, the executives of APA and the SFB shall maintain regular communication to discuss matters of common concern.

Finally, APA and the SPF will seek to identify projects and activities in which they may work together, assist or support one another, or otherwise cooperate for the betterment of psychology and the public interest.

SIGNED on behalf of:

The American Psychological Association

President
July, 2013

Sveriges Psykologförbund

Lars Ahlin/President
