Career Development: Pathways for Women in the Profession

An Insider's Guide to Research and Training Funding Opportunities: Talk with NIH Staff

Each year, during the American Psychological Association's annual convention, WPO invites staff members from NIH and other federal agencies to participate in a research funding and information session. The purpose of the session is to

meet with attendees individually or in small groups to present federal funding opportunities and to answer any specific questions of the attendees regarding research ideas, reviews, appropriate funding opportunities, and career development. The 2018 session was presented by Dr. Cheryl Boyce. Ms. Burrwell will co-chaired this session on Saturday, August 11, 3:00 – 3:50pm in the Next Generation space, Moscone Center.

APA Leadership Institute for Women in Psychology (LIWP)

In April, the 10th Class returned to APA Headquarters to complete their leadership training, including a trek to Capitol Hill to meet with members of Congress and their staffs. An invited address delivered by Dr. Carlota Ocampo ('11) has firmly established the tradition of featuring an alumna as a speaker during the LIWP follow-up program. Dr. Ocampo currently serves as Provost at Trinity University. WPO was pleased to host a luncheon reunion during convention where we recognized Dr. Dorothy Cantor for her signal contribution which established the Dorothy W. Cantor APF LIWP Fund. The Cantor Fund is now approaching \$300,000. These funds are used to provide scholarships to Participant Leaders and to cover program expenses such as assessments and other materials.

We also offered to our almost 350 alumnae ongoing programming such as a quarterly webinar series, alumni support on the listserv, and annual follow-up reports. On March 13, LIWP presented the first quarterly webinar *Leadership Applications of What We Know as Psychologists* led by Colonel Becky Porter, Ph.D., LIWP alumni, and the first psychologist in the Army to be appointed to head of a medical treatment facility. On April 11, the *Strategies for Dealing Effectively with Difficult People* was presented by Mary Casey Jacob, Ph.D, ABPP, and LIWP faculty member (2008 – 2017). On June 20, APA's Interim Senior Communications Advisor, Kim I. Mills, M.A, led a third a webinar on *What's Your Message? How to Work with News Media*. On November 14, Dr. Jacob presented a fourth webinar on *Managing Up*.

LIWP alumnae have access to the LIWP listserv where they can share news, ask for professional advice and collaborate on similar initiatives. From the 2017 APA LIWP Participant Leaders: Annual Update Survey we published *LeadHERship*, V.2 which is a compendium of alumnae updates on their professional activities and accomplishments. The 2018 APA LIWP Participant Leaders: Annual Update Survey is in the field and open for alumnae to complete until December 31, 2018.

As we completed the 10th Class training and continued to serve our alumnae, Dr. Miles-Cohen initiated a review LIWP program goals and curriculum with the aim of advancing the LIWP toward dedicating more time to empowering women psychologists as leaders to change the systems in which they are located, rather than trying to change women psychologists so that they better fit into their current

settings. To undertake this important work and develop the resulting curriculum, she delayed convening the next LIWP class until April 2019.

Dr. Miles-Cohen recruited three amazing women to join Drs. Sandy Shullman, Kate Brown, Jean Chin, Jessica Henderson Daniel, Ruth Fassinger, Nadine Kaslow, Jennifer Kelly, and Susan McDaniel as members of the APA LIWP Advisory Committee: Carlotta M. Arthur, Ph.D., Director of the Clare Boothe Luce (CBL) Program for women in STEM at the Henry Luce Foundation; Barbara Gault, Ph.D., the Vice President and Executive Director of the Institute for Women's Policy Research; and Linda R. Mona, Ph.D, founder and president of Inclusivity Clinical Consulting Services (ICCS).

Finally, the Class 11 Call for Applications was released in August 2018. In December 2018, the APA LIWP will announce the names of the 37 women psychologists invited to join LIWP Class 11.

Women with Disabilities in STEM Education

Dr. Miles-Cohen and Dr Dolores Cimini are completing work on a manuscript which they plan to submit for publication in early 2019.

Dr. Miles-Cohen was a panelist for H. Metcalf (Moderator). *Crafting a Common Understanding: Intersectionality*, which was conducted at the ARC Network: A STEM Equity Brain Trust Inaugural Stakeholders' Meeting, Baltimore, MD.

Youth Empowerment

***I am Psyched!* Initiative**

I am Psyched! Inspiring Histories, Inspiring Lives is a multimedia initiative that explores the history and contemporary contributions of women of color in psychology as they engage in psychological science, practice, and social justice. The exhibit, which is currently on national tour, was created in response to an invitation from the Obama Administration's White House Council on Women and Girls and the Smithsonian Affiliates Program in 2016. APA's Women's Programs Office partnered with the Drs. Nicholas and Dorothy Cummings Center for the History of Psychology and Psychology's Feminist Voices Oral History and Digital Archive Project to create the *I am Psyched!* exhibit to engage visitors, especially young women and girls of color, in exploring how psychology benefits daily life.

Since then the exhibit has grown into a multidimensional project that aims to diversify all aspects of psychology to benefit society and improve people's lives. By communicating the topical diversity of the field and the racial, ethnic, and cultural diversity of psychologists themselves, we are encouraging young women and girls of color, and others, to consider careers in psychology, use psychology to improve their daily lives and create positive social change in their communities, and to be excited by the museum experience.

The production of this panel was funded by a grant from the St. Johns University Department of Psychology.

On August 9, *I am Psyched!* host sites were invited to attend the 2nd annual *I am Psyched!* Breakfast during the APA convention, to share post-exhibit feedback and reflections, and to discuss future collaborations with the *I am Psyched!* initiative.

Curriculum Development and Publications

▪ Teachers Advisory Committee (TAC)

WPO is working with APA Editorial and Design Services to layout and produce teaching guides, classroom posters, and an interactive timeline for use in middle and high school classrooms that were produced with the help of the TAC. In addition, we are requesting and curating Video Selfies, brief video clips of diverse women psychologists describing what first sparked their interest in psychology and the work they do currently, that can be used by secondary teachers to introduce new subjects in their classrooms. Working with colleagues in the Education Directorate, WPO will seat a Faculty Advisory Committee (post-secondary faculty) in 2019 to begin to work on the postsecondary curricular materials.

Drs. Miles-Cohen, Faye, and Rutherford collaborated on an article that was published recently that they hope to include in the curricular materials: Miles-Cohen, Faye, & Rutherford. (2018). *I am Psyched!* Inspiring histories, inspiring lives: Women of colour in psychology. In J. C. Ashton (Ed.). *Feminism and Museums: Intervention, Disruption, and Change*, Vol. 2, (pp. 476-502). Edinburgh, UK: MuseumsEtc.

Public Awareness Campaign: Traditional Media, Social Media and Digital Media

WPO is working hard with PR office partners to develop a suite of media tools to use to raise awareness about the past, present and future of women of color in psychology, and highlight their contribution into the field. In addition to publicizing the achievements of women of color in psychology, WPO staff also encourage the tour hosts to share *I am Psyched!* experience and reflections on social media platforms.
