

Figure 17.1. Provider Resources

Type	Location	Description
Websites	Veteran’s Administration SMA Guide http://www.queri.research.va.gov/tools/diabetes/shared-med-appt.pdf	This link will take you to the Veteran’s Administration SMA guide for diabetes management. This 68 page resource includes an overview of SMAs, preparing for an SMA including system buy in, timeline, target population, and team members. Guidance on “making it happen” include SMA handouts, templates, surveys, documentation and billing, overcoming barriers, and program evaluation guidance.
	Massachusetts General Hospital Guide http://www.massgeneral.org/stoecklecenter/assets/pdf/group_visit_guide.pdf	This link will take you to “Putting Group Visits into Practice: A Practical Overview to Preparation, Implementation, and Maintenance of Group Visits at Massachusetts General Hospital.” This 26-page guide includes content on preparing and planning for a group visit, implementing a group visit at your practice, and maintaining and sustaining group visits.
	Group Medical Visit Curriculum Page http://www.fmdrl.org/group/index.cfm?event=c.showWikiHome&wikiId=15	This page was developed by a team of family medicine educators with the goal of providing tools to strategize, plan and conduct group medical visits in primary care. The site includes a group starter kit for the CHCC group model with information on planning and starting different groups, task lists, and examples of invitation letters, group agendas, materials and resources for patients.
