

Stimulus Relations in Pavlovian Conditioning

Temporal Relation Between CS and US

- Common conditioning procedures
- Effects of the CS-US interval
- Temporal encoding of when the US occurs

Signal Relation Between CS and US

- The blocking effect
- CS/US contingency

Higher-Order Relations in Pavlovian Conditioning: Conditioned Inhibition

- Inhibitory conditioning procedures
- Behavioral measurement of conditioned inhibition

Higher-Order Relations in Pavlovian Conditioning: Conditioned Facilitation

- Associations learned in a conditioned facilitation procedure
