

Unit-by-unit observational coding of APA video. Coding done by K. Critchfield

IRT treatment in session 4 with a patient, Arthur, diagnosed with passive-aggressive PD

(to illustrate research coding and allow those interested a chance to practice and compare codes; see Chapter 3 for overview of coding steps)

(note: use of "/" indicates complex codes, i.e., codes that occur in combination with one another)

Thought Unit Number from Transcript	In-Session Process between Arthur and Therapist			"Implied Process" Involving Others Who Are Not Present			Codes of Narrative Content
