Committee on Human Research *Impact of the Revised Federal Regulations for the Protection of Human Subjects Survey*

The Committee on Human Research (CHR) launched a survey in May 2022. The Survey assessed the impact of the revised regulations on psychological scientists who conduct research with human participants and institutional review boards that review this research. Analysis of the data will take place in 2023 and will be used to inform the Committee’s work in the future.

Collaboration with APA’s Ethics Code Task Force

APA’s Ethics Code Task Force (ECTF) is responsible for revising APA’s Ethical Principles of Psychologists and Code of Conduct. Members of CHR have provided important information on section 8 of the code, relating to the ethics of research and publication. CHR will continue its engagement with the ECTF, as well as the Ethics Committee generally, to further share its expertise in psychological science and ethical research on human subjects in psychology.
