Note. Column percentages may not sum to 100 due to rounding.

¹ The total number of students seeking internships is based solely on responding departments. Thus, these totals actually represent underestimates of the actual number of students seeking internships.

* Percentages are row percentages.

** Percentages represent percentages of students not placed out of the total number of students seeking internships for the respective program.

*** Percentages are column percentages using the number of students not placed on UND as the denominator.
