Research Office, American Psychological Association. 2004.

Note: Column percentages may not sum to 100% due to rounding. In categories where the *N* is low, statistics reported should be viewed with caution.

<sup>a</sup>Statistics in this category are based only on total number of respondents who indicated that they were members of the medical staff.

<sup>b</sup>Statistics in this category are based only on total number of respondents who indicated that they were members of the medical staff. Respondents were asked to indicate all relevant limitations on privileges. Therefore, percentages exceed 100% due to multiple responses.
