Source: 2003 Salaries in Psychology. Research Office. American Psychological Association. 2005.

Note: Salaries for faculty and independent practice are reported on a 9-10-month and 11-12-month basis, respectively. Conversion from a 9-10-month to 11-12-month period can be accomplished by multiplying by 11/9. Conversion from 11-12-month salaries to 9-10-month salaries can be done by multiplying by 9/11.

Adjusted salaries are the result of dividing the median salaries by the cost of living index, and then multiplying by 100.
