

Table 14

Proportions of Service Provision, Treatment Focus, and Average Proportion of Caseload by Clinical Issue for Psychology Health Service Providers: 2008

	Provide Service		Primary Focus of Treatment		Mean % of Caseload	SD
Clinical Issue	n	%	n	%		
Primary Axis I disorders	5,098	90.5	4,120	77.8	49.5	29.85
Substance use disorders	2,751	48.8	1,078	20.4	4.9	10.53
Primary physical health or medical diagnoses	2,904	51.6	1,752	33.1	10.8	21.28
Adjustment disorders	3,913	69.5	2,792	52.8	14.3	17.47
Primary Axis II disorders	2,746	48.8	1,474	27.9	5.8	12.38
V Codes	1,630	28.9	830	15.7	2.0	6.21
Family/Relationship problems	3,554	63.1	2,359	44.6	9.0	13.08
No mental or physical health diagnoses	729	12.9	340	6.4	1.7	8.79
Other	313	5.6	177	3.3	2.0	11.98

Notes: N=5,632. Missing values were excluded prior to analysis. Totals sum greater than 100 percent for "Provide Service" and "Primary Focus of Treatment" categories as respondents could select multiple options.
