

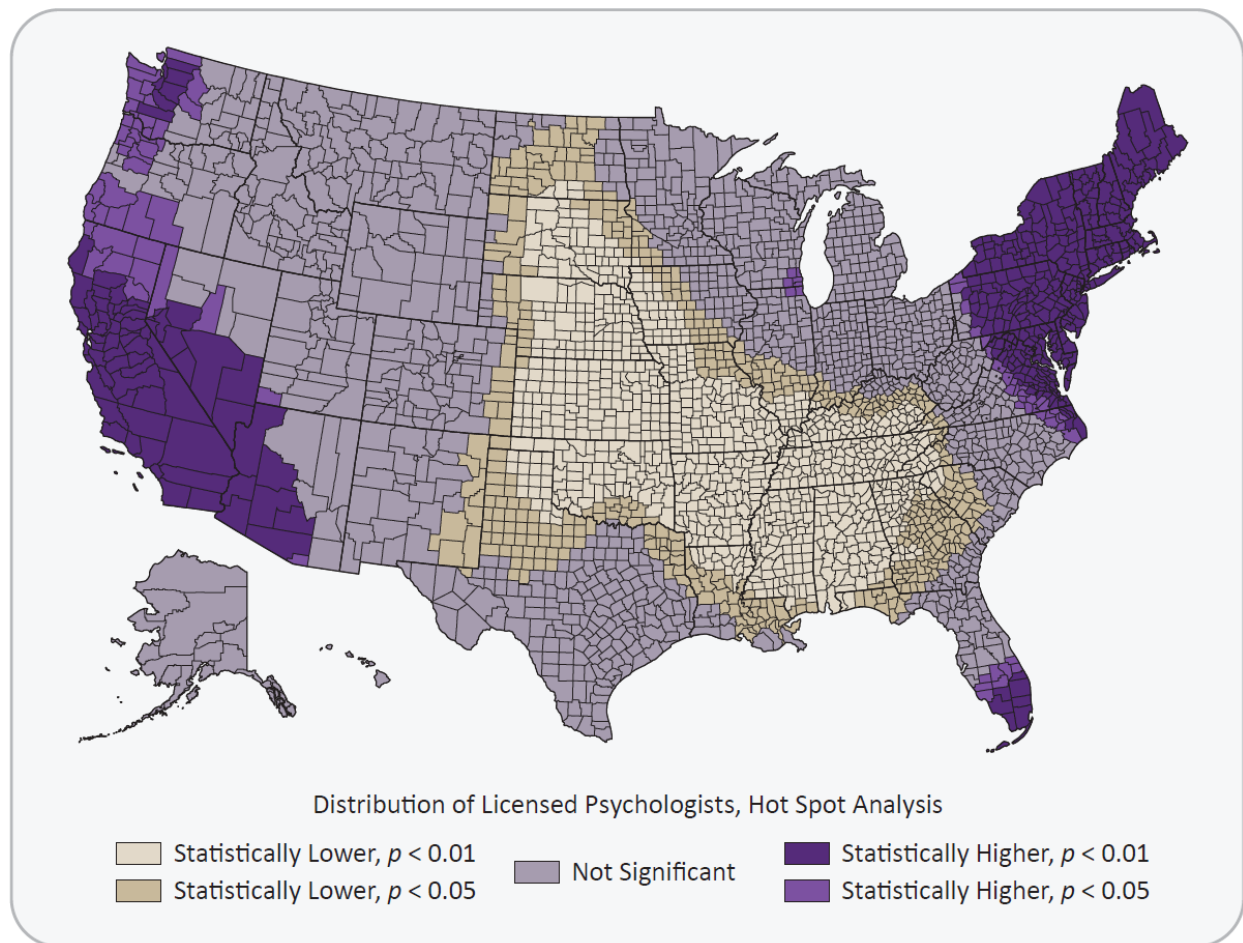

Figure 3. Hot Spot Analysis on the Number of Licensed Psychologists, 2012-2015

Source: American Psychological Association, 2012-2015 State Licensing Board Lists; U.S. Census Bureau, 2014 County Cartographic Boundary Shape files.

Note: This map was based on the Getis-Ord statistic generated from hot spot analysis. Number of licensed psychologists were statistically compared to the national mean. Counties in Hawaii, Oklahoma, and Utah were included in the analysis based on state means of licensed psychologists per county.

Please see online version of this map for full range of color codes.
